# Mexicans Make Demand For Surrender

Soldiers Bravely Approach Outposts and Ask Americans to Evacuate Vera Cruz Waterworks District—Retire Without Firing.

MEDIATORS WILL WRESTLE WITH TAMPICO INCIDENT

Body Becomes an International Court of Honor and Will Decide Whether the Flag Was Insulted or Not, and Fix Reparation.

By Associated Press.

WASHINGTON, D. C., MAY 4.—ANOTHER FRUITLESS DEMAND BY MEXICAN SOLDIERS FOR THE SURRENDER OF THE WATERWORKS, JUST OUTSIDE OF VERA CRUZ WAS REPORTED TO THE WAR DEPARTMENT TODAY BY GENERAL FUNSTON. THE REPORT SAID THE MEXICAN OFFICERS CALLED UPON THE AMERICAN OUTPOSTS TO SURRENDER, BUT MADE NO VIGOROUS EFFORT TO ENFORCE THE DEMAND. THE MEXICANS RETIRED AND NO SHOTS WERE FIRED. GENERAL FUNSTON HAS ASKED FOR INSTRUCTIONS AS TO CONTEMPLATED STEPS.

## NAME MEN FOR MEXICO

By Associated Press.

Washington, D. C., May 4.—General Huerta's acceptance of the request of the Latin-American envoys that he send delegates to confer with them in efforts to mediate the difficulties between Mexico and the United States was announced today at the state department, together with the names of two of the Mexicans who will represent the Huerta government in the negotiations. The mediators at a conference with Secretary Bryan communicated to the department that Gen. Huerta had selected to represent their interests in the negotiations, D. Emilio Rabasa, Mexican jurist, and Augustine Garra Galindo, of the department of Justice in Mexico. It was further announced that a third delegate to represent Huerta would be named tomorrow. Following the conference Secretary Bryan made public the information from Mexico City which Huerta had communicated first to the mediators through Ambassador Riano of Spain. The further announcement was made that no delegates to represent the United States had been selected. Mr. Bryan would not discuss the details of the conference.

Mr. Rabasa is a close friend of Gen. Huerta and it is believed here that he was his personal choice. He once had been chosen by Huerta to be ambassador to the United States in case this government had recognized the Huerta regime.

A general understanding after the State Department conference was that the mediators had decided to limit their activities at this time to a settlement of the Tampico incident solely, and that the appointment of Huerta delegates was made on that basis. This would constitute the mediators an international court of honor, to decide on whether the United States was entitled to reparation for the "insults" to the flag at Tampico and what form that reparation should take. After that point was settled they would be confronted by the question of indemnities which probably would be claimed by United States for its Vera Cruz expedition and the other expenses incident to the present difficulty. In considering indemnity the question would again be raised as to whether the Huerta government, not recognized by the country, could properly be held for indemnity.

## BOARD JAILED

By Associated Press.

Chicago, Ill., May 4.—Eight members of the Board of Education, including the President, were sentenced today to 30 days in the county jail for contempt of court for refusing to obey the order of Circuit Judge Foell, reinstating four members of the board. The situation hinges on a dispute over the retention of Mrs. Ella Flagg Young as superintendent of the schools.

## FIRST PHOTO OF ACTUAL FIGHTING WHEN U. S. CAPTURED VERA CRUZ

Vera Cruz, May 4.—The United States forces now control the entire city of Vera Cruz and the country within a radius of sixty miles. The illustration shows how Uncle Sam's Jack tars fought in the streets when they drove the army of General Maas out of the city. Barricades of this description stopped hundreds of Mexican bullets. This striking photo was taken at great risk by Adrian C. Duff, a staff photographer of the American Press Association. He was the first man to take photos of New York City and the Atlantic coast from an aeroplane.

## BANDITS KILL A POLICEMAN

By Associated Press.

New York City, May 4.—Police-man William J. Kelley was mortally wounded by two hold-up men in Brooklyn early today, after they had shot and killed a Greek restaurant keeper.

The Greek was killed after he had refused their demands for money, and the policeman was shot while pursuing the murderers.

Christopher Dunn, 24, was arrested, charged with participation in the crime. A companion escaped. Kelley is the third policeman shot by crooks in Brooklyn recently. He died later.

## LEGISLATION TO BE PASSED UPON

By Associated Press.

Washington, D. C., May 4.—After a conference with President Wilson today, Majority Leader Underwood announced that an agreement had been reached to put through the Clayton Omnibus Anti-trust bill, the Covington Interstate Trade Commission bill and a bill to regulate the issuance of stock securities, as well as a rural credit measure, before Congress adjourned.

Mr. Underwood announced that he would call a Democratic caucus to ratify the program which he arranged with the President and that it was the aim of the President and himself to have Congress adjourn by July 1st. He said that the Mexican situation might at any time absorb the attention of Congress and interfere with the program, but he did not see any prospect of such development as yet.

Valparaiso, Chile, May 4.—More than 50 lives were lost early today in a fire in the commercial section of the city. Several buildings were destroyed.

## SOLONS WANT TO SQUIRM OUT

By Associated Press.

Denver, Colo., May 4.—The Colorado legislature convened in extra session in response to a call from Gov. Ammons, to consider matters in connection with the coal strike. Administration supporters are said to favor the payment of the militia, but opponents declare that if such legislation is attempted an attempt will be made to bring about the governor's impeachment.

A suggestion was heard that the Senate and House appoint a joint committee to investigate the strike and report to the Twentieth Legislature, to convene next January, and then adjourn sine die, leaving the present situation to be handled by the Federal authorities. Such a course would mean no provision for meeting the military indebtedness, which is now estimated at \$1,000,000, and no attempt to carry out the legislative program contained in the Governor's call. Labor leaders continue to express confidence that they will be able to carry out the avowed program for Governor Ammons' impeachment.

## WOULD PICKET STANDARD OIL IN WHOLE LAND

By Associated Press.

New York, May 4.—Upton Sinclair, who first conceived the idea of picketing Rockefeller's office, today sent a telegram to Walter Lanferdick, National Secretary of the Socialist party, in Chicago, asking that "mourning pickets" be placed before every branch office of the Standard Oil Company in the United States.

## \$3,000,000 IN FAILURE

By Associated Press.

Philadelphia, Pa., May 4.—The failure of Cramp, Mitchell & Co., Bankers and Brokers, was announced on the stock exchange early today, with liabilities exceeding \$3,000,000.

It had been known for some time that the firm which was prominent and maintained elaborate offices, was in difficulty, owing to the severe

losses it has sustained on underwriting operations. One of its enterprises was an asbestos corporation with headquarters in Canada. This concern collapsed three years ago, but was subsequently reorganized, the stock and bond issue being cut down from eighteen million to ten million dollars. Besides the asbestos operations, the firm was involved in a coal product which also failed to come up to expectations. An involuntary petition in bankruptcy was filed in the U. S. District Court here and immediately granted. Charles S. W. Packard, president of one of the city's largest financial institutions was appointed temporary receiver. Liabilities were given as \$3,600,000; assets, \$3,100,000.

## REPORT DENIED

By Associated Press.

Washington, D. C., May 4.—Reports that Americans had been killed in San Pedro Chiapas, were denied at the State department today.

## ENTOMBED ALL DEAD

By Associated Press.

Eccles, W. Va., May 4.—Foul air in the galleries hampered the work of removing the bodies from Mine No. 5 of the New River Coal Company today, but by noon 100 dead had been

brought to the top of the shaft. All the victims of last Tuesday's explosion were in sight and rescuers hoped to have the mine clear of the dead by tomorrow. Many funerals took place today.

# HUERTA PREPARES TO MAKE FLIGHT

Carranza Replies to Mediators' Request For Armistice.

HE NAMES TWO PEACE ENVOYS

Desires To Be Represented at the Mediation Conference, but in the Meantime He Says He Proposes to Complete the Conquest of Northern Mexico - Would Give Huerta No Advantage.

El Paso, Tex., May 4.—Constitutionalists in Mexico will not remain inactive while the A B C alliance mediation board is arranging for peace in Mexico. This was stated emphatically by General Carranza, in a reply to the request of the mediators that hostilities be suspended pending the adjustment of the Mexican situation.

Carranza takes the position that it would be giving Huerta too great an advantage for the rebels to let matters rest just when they have every opportunity for making the conquest of northern Mexico complete. Carranza wishes representation at the meetings and as representatives the mediation conference he has named Rafael Zubaran Capman, minister of gobernacion in the Constitutionalists' cabinet, and Luis Cabrera, one of Carranza's confidential advisers.

General Carranza in his reply said: "I again direct myself to you for the purpose of answering your respectful message relative to an armistice, calling your attention to the fact that the international conflict with the United States was intentionally provoked by Huerta, and for the solution of which I hurriedly accepted in principle only the good offices of Brazil, Argentine and Chile, and which acts are independent of our internal strife for liberty and law. I consider it inconvenient for the Constitutionalists' cause that I represent."

## PREPARING FOR SALTILLO BATTLE

Chihuahua, Mexico, May 4.—Federals are strongly fortifying Saltillo and preparing to make a desperate stand against the rebel forces of General Villa. Advices from the front say that 1,800 federal reinforcements have reported to Saltillo, bringing the strength of the federal garrison there up to more than 12,000 men.

The rebel advance against Saltillo has become general. General Villa began entraining troops at Torreon for San Pedro de las Colonias. As the railroad line between San Pedro and Monterrey is still out of commission, the forces sent to San Pedro will march overland from that point to Monterrey and thence to Saltillo. Villa has 18,000 men to send against Saltillo, and practically the whole force now is moving to the attack.

It is stated by rebel leaders that General Villa will devote his whole attention to Saltillo, leaving the Tampico situation to Generals Gonzales and Villareal.

## DOCTOR PARDONED

Chihuahua, Mexico, May 4.—Manuel Chao, governor of Chihuahua, has granted an unconditional pardon to Dr. Carlos S. Harle, the Abilene, Tex. physician who was sentenced to life imprisonment in the Chihuahua penitentiary in connection with a life insurance swindle, in which Harle and two others were alleged to have conspired to cause the death of two men to secure \$25,000 on an insurance policy in the New York Life Insurance company.

## BLOW UP STEAMER

Washington, May 4.—Information received in Washington within the last 24 hours has strengthened the belief that Huerta's day in Mexico is rapidly drawing to a close. Officials here are confident that the utter collapse of the dictator's power will come within a few days. They would not be surprised to hear of his resignation at any moment. The continued victories of the Constitutionalists and uprisings in Mexico City itself are expected to bring about Huerta's downfall.

Washington was alive with rumors of an impending change in Mexico City, and although no official information was given out on the subject, it was apparent the administration had reason to credit them. One of the reports that reached Washington from Mexico City through unofficial sources was that Huerta was about to signify his intention to resign provided he would be assured of safe conduct from the country.

## WOUNDED BETTER

Washington, May 4.—Admiral Baugher reported that the 55 wounded at Vera Cruz are all doing well.

## CONSULATE IS ROBBED

Americans Forced to Flee From Manzanillo.

Washington, May 4.—American Consul Stadden of Manzanillo, who arrived at San Diego, Cal., aboard the German steamer Marie with 259 refugees, reported to the state department that Mexicans on the day of his departure had taken American flags from the consulate, trampled upon them and burned them. He and his fellow Americans had been given 48 hours to leave Mexico dating from noon April 22.

Adolph Steff, the Norwegian consul at Manzanillo, was forced to flee to save his life and boarded the Marie as a refugee, after placing the archives of the consulate on the steamer Leonora, a Mexican vessel, but owned in San Francisco.

Consul Stadden said that the treatment given the Americans was "horrible." Had it not been for the good offices of the British and German consuls, he said, many Americans in the Colima district would have been "slaughtered."

## THEN AND NOW

### THEN

One hundred and twenty years ago today occurred the events which resulted in an insurrection for the independence of Ireland. At midnight of that day Dublin was in an uproar. The doors of a local legislative reform club, a branch of the United Irishmen Society, burst open with a crash. In the doorway stood the scarlet-coated soldiers of the King, covering the assembled Irishmen with their guns. The leaders were arrested and carried off to jail for treason.

From this moment dates the insurrection that was fought out four years later. Ireland was flooded with government troops, but the Society grew rapidly. Oaths of membership and secrecy were administered. Pikes and munitions of war were secretly distributed and hidden for the uprising. The Society had over 500,000 members at the beginning of 1798. Stern measures to stamp out the rebellion were instituted.

The insurrection began near Spafford on the 24th of May. It raged for a month, closing in the battle of Vinegar Hill, with victory for the government. The rebellion cost the lives of 150 Irishmen and 20,000 English.

Three years later the Irish Parliament was removed from Dublin and united with the English at London.

### NOW

Today, after more than a century under the rule of the Parliament at London, it is proposed to restore the Irish Parliament taken away in 1801 and to give Ireland home rule. The country is split in two over the proposition. The province of Ulster at the north declares against the proposal, while the balance of Ireland demands it.

The House of Commons has twice passed the bill, and the third passing when the bill becomes law, is near. More than 100,000 men of Ulster stand in defiance against the proposed government. They are organized into a citizen army with some of Great Britain's greatest soldiers as their leaders. They are drilling and learning how to shoot straight.

Munitions of war are being gathered. A fund of \$5,000,000 is being raised for the support of "the dependent relatives of the volunteers who may be killed or wounded in the fighting."

The leaders of the government are striving to avert civil war by conciliatory measures. More than 25,000 British troops are assembled today in the government barracks in Ulster to put down any uprising.

## WOULD HAVE STATE USE FARM FOR PARK

Hon. John Bryan, millionaire Greene county agriculturist, dreamer and writer of fables, was a visitor at the office of the Republican a few days ago and at that time made a statement that under his will all of his beautiful farm of 500 acres located near Yellow Springs, is bequeathed to the State of Ohio on condition that the state convert it into a great state park and agricultural equipment station, says the Xenia Republican.

Under his will, if the state refuses to accept the property on the conditions mentioned Greene county may take it under like conditions. If neither the state nor the county will accept the property it will revert back to Mr. Bryan's estate and will be divided among his heirs.

More beautiful scenery than that which may be seen on the Bryan farm which has a water front of more than a mile on either side of the Little Miami river, can not be found in the state of Ohio. On this farm and in the territory surrounding Clifton and Yellow Springs is found scenery which many people say rivals the magnificent scenery of the Rocky Mountains. Mr. Bryan himself says that the scenery on his farm and at Clifton and Yellow Springs is just as beautiful and picturesque as the scenery in the Rocky mountains, only on a smaller scale.

## HERRICK DECIDES

Columbus, O., May 4.—Myron T. Herrick, ambassador to France and governor of Ohio 10 years ago, is to seek the Republican nomination for United States senator to succeed Theodore Burton, according to announcement made here by his friends. They say that Herrick will return to Ohio on a leave of absence within the next two weeks and make formal announcement. State leaders are interested in the prospects of Mr. Herrick entering the race. Herrick petitions will be circulated this week.

## War Shaken Colorado

Absorbed as is the nation with the war with Mexico, the mine strike war in Colorado has been less prominent in the public eye, and the appalling fact that there is a condition of genuine warfare existing in the heart of our civilized domain has created far less consternation than its horror warrants.

When the wires flashed the news that four Americans were killed and twenty wounded at Vera Cruz, people rose up in indignation; when dispatches said, "Forty-five dead, twenty injured," in Colorado, the same public, inflamed as it was with patriotic zeal to demand reparation from Mexico, minimized the atrocious condition in Colorado by scant attention.

Yet in this terrible strike war is involved one of the most imperative factors in operating a successful government—that of industrial peace.

It is not our purpose to enter into a discussion of the respective merits and rights of this controversy, but to call attention to the fact that such a condition could be possible in the country which has been the strongest advocate for a Peace Congress and in the most civilized era of the world's history.

That war actually exists in Colorado is not to be doubted by those who read the newspapers.

No mere conditions of rioting exist; the fighting has assumed the fierceness of the battle. As one reliable report states, two hundred of the state militia were ranged on one side against double that number of striking miners. In close proximity to the mines owned by the Colorado Fuel and Iron company, sheltered by big boulders, armed with ammunition, the army of miners, largely foreigners, Italians, Greeks, Poles, Austrians, etc., waged this war through day and night.

And according to reports, as is the case in warfare always, innocent children and women suffered.

The Ludlow camp is a mass of charred debris, and buried beneath it is a story of horror unparalleled in the history of industrial warfare. In the holes which had been dug for their protection against the rifle's fire, the women and children died like trapped rats when the flames swept over them. One pit disclosed the bodies of ten children and two women".

Conditions have gone from bad to worse and six troops of cavalry, ordered out by President Wilson, at the urgent solicitation of Senator Thomas, of Colorado, now preserves order.

Friday, the Executive Board of Ohio miners went into session and President Moore gave out the statement that 45,000 miners of Ohio would go on a strike next week.

As in a large majority of the serious labor trouble of the country, the real bone of contention seems to be the recognition of the Union.

As in former great strikes not alone is a great industry paralyzed, and the conflict marked with loss of life, injuries and suffering; many related injuries are badly crippled and the public will be vitally effected by this war in Colorado.

The lesson of this war strike looms prominently, and demands that there be some adjustment of conditions so that this continual disturbance of industrial peace need no longer be a constant menace to the happiness and prosperity of our government.

## Walls of Sing Sing Prison Should Be Razored; It Is Nothing but a College of Crime

SING SING SHOULD BE ABOLISHED, AND FOR THE SAKE OF SOCIETY ITS WALLS SHOULD BE RAZED. AS A SUBSTITUTE SUCH PRISONS AS WE HAVE AT GREAT MEADOWS, WHERE WE AIM TO PUNISH, BUT AS WELL TO REFORM, SHOULD BE BUILT. I RECENTLY WENT TO SING SING. I WAS LOCKED FOR A FEW MINUTES IN ONE OF THE CELLS. THEY ARE DARK, DAMP AND IN EVERY WAY DEPRESSING, WITH NO SANITATION AT ALL EXCEPT A BUCKET. THEY ARE MENTALLY, MORALLY, PHYSICALLY AND FROM EVERY POINT OF VIEW SUCH A PLACE YOU WOULD NOT PUT YOUR DOG IN. IF YOU DID, HE WOULD GO MAD.

Sing Sing prison is a college of crime. IT BREEDS CRIME IN THE COMMUNITY. It is not only a college of crime; it is a pest house. It breeds pestilence in the community. It is not only criminal on the part of the community for itself; it is a STUPID BLUNDER ON THE PART OF THE COMMUNITY AGAINST ITSELF. If it be true that we have a criminal class incapable of reform the state is responsible for it in no little measure through the maintenance of such places as this.

## Poetry For Today

## EVEN SONG.

The robins were singing at twilight—  
Their songs were deliciously sweet  
And the afterglow fell through a sky  
light  
Of featherly leaves to the street.  
The southwind was tenderly blow-  
ing,  
As from the isles of the blest,  
And the beautiful sky was still glow-  
ing  
Where the sun had gone down in  
the west.

The winds carried many a vagrant  
And sweet willy-nilly perfume;  
The breath of the meadow was fra-  
grant,  
And the apple tree snowy with  
bloom.  
The shadows stole under the high  
light  
That swept up the sky from the  
west;  
The robins were singing at twilight,  
And the world had come around to  
its rest.

## GEN. SICKLES PASSES AWAY

### Last of Great Civil War Commanders Passes Away.

### HAD BEEN AILING FOR MONTHS

Warrior and Statesman Dies In the Presence of His Wife, From Whom He Had Long Been Estranged. Sketch of the Man Credited With Having Saved the Day at the Battle of Gettysburg.

New York, May 4.—Major General Daniel E. Sickles died last night at his home in Fifth avenue. He had been quite ill since March, when he suffered a hemorrhage. A week ago last Thursday there was another hemorrhage and the aged general was confined to his bed. Mrs. Sickles and her son, George Stanton Sickles, moved into the house a week ago last Tuesday, and while they are reticent, it is understood a reconciliation was effected.

There was a marked change in the general's condition Sunday and at 4 o'clock in the afternoon he began to move. The last rites of the Roman Catholic church had been administered by the Rev. Father Avard of St. Joseph's church. He died at 9:30 o'clock.

General Sickles was born in this city Oct. 20, 1820. He was the last of the great commanders of the civil war. He led his men in battle with consummate bravery and distinction. At the last he turned the tide at Gettysburg and earned a soldier's immortality.

He was a congressman when the civil war began, and responded to Lincoln's first call for volunteers. In 1862 Sickles, with 1,000 picked men, defeated the outposts of General Longstreet's army at Stafford's Court-house. In November of 1862 he was made a major general of volunteers and had command of the Third corps at Chancellorsville.

General Sickles commanded the Union left at Gettysburg. His capture of Peach Orchard Ridge checked Longstreet's forces from working their way into the rear of the Union army. Many men were killed at Peach Orchard Ridge. This portion of the battlefield was called the "bloody angle." Sickles' knee was shattered by a shell during the engagement, the leg being amputated the same night.

## Killed Wife's Betrayer.

General Sickles had just begun his second term as congressman in 1859 when the national capital was stirred by the news that the young representative from New York had shot and killed Philip Barton Key, attorney for the District of Columbia. Sickles declared that Key had misled Mrs. Sickles, who was Theresa Puglisi, daughter of an Italian music teacher. The trial lasted 20 days, ending in the acquittal of Sickles on the ground of "unwritten law." He then took his erring wife back. Mrs. Sickles died of a broken heart a few years later.

In 1869 Sickles was appointed minister to Spain by President Grant.

At the court of Spain, Sickles' vigorous personality made him a dominating figure. Four years of brilliant diplomacy brought him the epithet of "The Yankee King of Spain." Here he contracted his second marriage, with the beautiful and distinguished Senorita Creagh. This romance was followed by an estrangement which was to last more than a quarter of a century.

### FOUGHT IN CUBA IN 1898.

By Giving Cubans Whisky He Was Enabled to Draw Map Showing Exact Location of Spanish Vessels—Story of Brave Exploits and His Promotion In the Service.

Washington.—Do you remember what the governor of North Carolina said to the governor of South Carolina? Well, the application of that immortal principle made Victor Blue famous.

Just now he is Rear Admiral Blue, in command of the bureau of navigation of the navy department. That bureau is to the navy a good deal what a peculiarly broad gauged train dispatcher, with collateral authority over the general manager, might be to a railroad. It practically runs the department. During the war with Mexico it will be Blue's duty to see that the ships are provisioned and coaled and manned. Between times he will give the commanders their sailing orders. The chief of this bureau is the eyes and legs and right hand of the average civilian secretary of the navy.

When he was Lieutenant Blue, Sampson wanted the position of every ship mapped, so that the Americans could elevate their guns and shell them over the hills which locked Santiago harbor. Blue went back another night—in danger of his life at every wriggle through the grass—and climbed a tree which overhung the harbor's edge. There he managed by a miracle to make a perfect map of the position of the Spanish ships. Between times he had to come down out of the tree and boot his impetuous patriots into giving up their guns. The tree hung directly over a populous Spanish fort and Spanish soldiers were within easy potting range. His Cubans wanted to get a few scalps before they went back to the jungle. Blue's map making struck them as academic and absurd and a waste of time.

"I'll find out," said Blue.

He went ashore alone, depending on the guidance and escort of the Cuban patriots who were camped in the tall grass thereabouts. The patriots had been badly skinned up that day in a sharp skirmish with the Spaniards. The Cuban chief was one of the roughest Cuban chiefs Blue had ever encountered. Wounded patriots were lying all over the camp groaning. Lieutenant Blue asked for guides and an escort.

"Not a man," said the savage general. "Not a one!"

He meant it. That was obvious. So Blue didn't argue the case with him.

REAR ADMIRAL VICTOR BLUE.

But in his slender baggage were two bottles of the best whisky that ever softened the heart of man.

"My general," said Blue softly, "will you join me in a toast to Cuba Libre?"

"Would he? He did. Blue handled

# EXTRAORDINARY CASE AT FAYETTE HOSPITAL

Life of Little Girl, Who For Two Years Has Lived by Breathing Through Silver Tube in Throat, Threatened.

## TUBE IS PULLED OUT DURING PLAY

Mother Finds Child Smothering to Death, Inserts Emergency Tube, and Rushes Babe to Local Hospital Where Efforts to Reinsert Tube Fail—Child is Daughter of Dr. Wm. Francis, of South Charleston, and Father is on Way to This City.

One of the most extraordinary cases in the history of the Fayette hospital, is that of a patient which entered the hospital Monday morning.

The new patient is Mary Elizabeth the five-year-old daughter of Dr. and Mrs. William Francis, of South Charleston, who for more than two years past has been forced to breathe through a silver tube inserted in the windpipe, and early Monday morning while playing at the home of Mr. and Mrs. William Gibson, in Yaterville, the child accidentally pulled the tube from its throat and almost smothered to death before an emergency tube could be inserted to take the place of the tube regularly used.

Mrs. Francis and the children had come down from South Charleston on Sunday, to spend a few days with Mr. and Mrs. Gibson, Mrs. Francis being a former resident of northern Fayette.

While Mary Elizabeth and the other

children were playing, a cord about the child's neck which held the silver tube in place, snapped, and the tube was pulled violently from the incision in the windpipe. The incision immediately closed and the child fell to the ground. The other children spread the alarm and the frantic mother rushed to the dying babe and inserted the emergency tube, temporarily relieving the afflicted child.

As the small tube is insufficient to afford enough air, it became necessary to rush the child to the nearest hospital.

Mr. Fred Groves was summoned, and within a few moments he had the child and its mother in his automobile and was speeding to the hospital in this city, while a long distance message apprised the father in South Charleston of what had occurred, and he expected to reach Washington some time Monday afternoon.

At the hospital it was found impossible to insert the tube which had been jerked from its location. The mother refused to have the incision enlarged, and the matter was allowed to rest until the child's father, Doctor Francis, arrived.

It is thought that it will be necessary to enlarge the incision to permit the insertion of the tube, or probably take the child to an expert in Columbus. At last accounts Monday afternoon the little patient was resting easy.

The original operation and insertion of the tube was performed some two years ago, when the child's life was threatened owing to the larynx becoming closed.

The case is a most unusual one, and the sadly afflicted little tot has a world of sympathy because of its serious handicap.

## INCORRIGIBLE YOUTH WANTED FOR THEFT OF SISTER'S HAT

Orville Stookey Now Accused of Stealing From Sister and Father—Disappears When he Learns Police Are After Him—Incorrigibility Apparently Incurable.

Orville Stookey, the youth who cannot stay out of trouble for any length of time, is again wanted by the police.

This time young Stookey is charged with the theft of his sister's hat and bracelet, and a set of harness belonging to his father.

What disposition he has made of the harness he stole from his father, is not known, but it was soon ascertained that he gave his sister's hat and bracelet to Bessie Hickman, and the girl was given until Monday afternoon to return the stolen articles or their equivalent in money.

## YOUNG WESTERN BITE DUST AT HANDS OF ATHLETICS

Reno Scores Another One by Clever Twirling and Visitors Get Little End of 9 to 3 Score—Corwin Meets With Accident in Seventh—Vauters Is Some Hitter—Gem City Reserves Will be Here Next Sunday.

A large crowd, taking advantage of the ideal weather, journeyed to the Athletic park Sunday afternoon to witness the contest between the Young Westerns, of Columbus, and the Washington Athletics, and found much to their surprise that Reno had little trouble in spoiling the Westerns' reputation of heavy hitting and piling up large numbers of runs,

A week ago the Westerns defeated the Newark team by a 24 to 4 score, but the best they could do to Reno's slants and curves, was to get four measly bingles during the game, which, in connection with five errors were good for three runs.

During the first six innings the visitors did not secure a safe hit. While the game was rather slow, with many errors on both sides, some sensational plays were made by each team.

In the seventh inning Corwin, the local short stop, had the misfortune of sustaining a badly broken nose, and was carried from the field. Corwin was in the act of picking up a hot grounder, when the sphere struck a raise in the ground and in\* a twinkling the ball had struck him with terrific force fully upon the nose, badly fracturing the bones of his nose, and putting him out of the game. A physician was upon the scene within a few moments and dressed the fractured nose. Corwin pluckily remained on the bench during the remainder of the game.

Next Sunday the Athletics will play the Gem City Reserves, of Dayton. This is the team that played here

Denver, Colo., May 4.—With the entire membership of Company A, Colorado National Guard, facing both courtmartial and trial by the civil authorities or charges of murder as a result of the killing of two women and 11 children in the destruction by fire of the Ludlow tent colony on April 20, the real interest in the strike situation centers in Denver.

The state legislature convened today with nearly every member present. Before the session opened numerous secret caucuses were held in the big hotels. On every side it is reported that well defined plans to impeach Governor Ammons and probably Lieutenant Governor Fitzgerald have been formulated.

That a resolution to impeach Ammons will be introduced is virtually certain. Whether the house will adopt

# LEAPS TO HIS DEATH

Thousands Witness Flight and Tragedy at Akron.

Akron, O., May 4.—H. P. Harris, aviator, making an exhibition flight here, met instant death in a 600-foot fall when the left wing of his Curtiss biplane broke entirely from the machine. He jumped from his seat when 100 feet from the ground. His neck and back were broken and death occurred before a hospital could be reached.

Thousands of spectators witnessed the flight and the tragedy. They had seen Harris make several daring spirals and dips at high altitudes. It was in making a sudden dip that the strain became too much for the wings. Harris had been in the air 15 minutes and was preparing to land. He was 35 years old and married.

In his fatal flight the aviator had prepared to take a woman passenger who had asked the opportunity of making the trip. She took her seat beside him, but stepped out and refused to go just before the machine started.

## ELECTION FRAUD ARRESTS MADE

New York, May 4.—Evidence of ballot box stuffing by both Democratic and Republican election officers, which was dug up by District Attorney Whitman and his assistant, William A. De Ford, resulted in the arrest of four election officials of the Sixth election district of the Twelfth assembly district, of which Charles F. Murphy is the Tammany leader. Warrants are out for two more men in connection with the same election district. The men arrested were charged with neglect of duty in failing to perform an act required by the election law. The arrests were based on indictments handed down by an additional grand jury which has been investigating the alleged frauds.

## REVIEW OF YEAR'S WORK.

Responded to One Hundred and Three Calls, Mostly Wireless Signals For Aid—Hundreds of Lives and Vast Amount of Property Rescued From Waters—Report of Winter's Toll.

Washington.—The winter just closed has been the busiest for the revenue cutter service in its history. During the winter cruising season beginning Dec. 1 and ending March 31 its little fleet has rendered assistance to nearly 1,000 persons and to several million dollars' worth of cargo and vessels.

The cruising fleet was distributed as follows: At Eastport, Me., the Woodbury; at Portland, Me., the Androscoggin; at Boston, the Gresham; at Woods Hole, Mass., the Acushnet; at New York, the Itasca; at Baltimore and in the Chesapeake bay, the Apache; at Norfolk, the Onondaga; at Wilmington, N. C., the Yamacraw.

The Seneca was sent out from New York the middle of February to resume the north Atlantic ice patrol, which

ELLSWORTH P. BERTHOLF, CHIEF OF REVENUE CUTTER SERVICE.

she undertook last year. She was joined recently by the Miami. Their season will not end until about the 1st of June. These boats by an international agreement are making the patrol for the benefit of European nations as well as the United States.

The first report to reach the treasury department is from the Onondaga. Captain B. M. Chiswell commanding. The Onondaga got the heaviest of the work, stood out to sea almost constantly, running into Norfolk only for coal. She patrolled over 200 miles of coast, from Cape Hatteras to the Delaware breakwater, where she met the Itasca, cruising out from New York. Frequently the trim little cutter was sent out hard under forced draft, nearly always in a raging storm and sometimes in a blinding blizzard or fog, in answer to wireless S. O. S. calls. Under forced draft she made from eighteen to nineteen knots. The Onondaga has a displacement of 936 tons, 205 feet length and 32 feet beam and a draft of 13 feet 6 inches. She carries four six-pounder rapid fire guns and has a complement of nine officers and sixty-three men.

Captain Chiswell describes his work, day by day, of assisting eleven vessels, having on board 283 passengers. The vessels were valued at \$1,094,900, and the cargoes \$744,000. Three wrecks and the wreck of the Monroe were destroyed.

The most valuable vessel assisted by the Onondaga was the American steamer Freida of New York, bound from Sabine Pass, Tex., for Baltimore, with a cargo of sulphur. The Freida grounded three miles off False Cape, Va., in a heavy fog, Dec. 24. The Onondaga assisted her to safety.

Fancy strawberries, 17c per quart. Pineapples, big as small barrels, 15c each. Great big Jumbo bananas, yellow as gold, 10c per doz. Sunkist sweet navel oranges 25c per dozen. Extra fancy grape fruit, 10c, 3 for 25c. New tomatoes, 10c per lb. These tomatoes are fancy and ripe. Home-grown rhubarb and green onions, 2 bunches for 5c. Springers' lettuce, 12½c per lb. New sweet potatoes and new cabbage, 4c per lb. 25 lbs. best cane granulated sugar, \$1.08 per sack. Fayette county honey as nice as you ever saw, 18c per lb.

**SPORT LETTER**

By Associated Press.

New York, May 4.—Amateur rowing club and college oarsmen are greatly interested in the training progress of the Union Boat Club Eight of Boston which has been entered for the Grand Challenge Cup at the Henley, Eng., regatta, to be held July 2-4.

The crew and substitutes consisting mainly of former Harvard Univ. oarsmen are rapidly rounding into rowing form and experts who have been following the daily training predict a powerful, fast and finished eight will carry the Union Boat Club colors at the famous English regatta. The crew as composed at present contains some of the heaviest, strongest and most finished oarsmen to win varsity letters in recent Harvard eights. Although the combination averages well over 180 pounds at the present time, it is expected that when it is boated on the Thames the average will be but a pound or two below these figures.

The plans of Georges Carpenter, the English light-heavyweight, for a tour of the world have been set back as the result of the match made with Gunboat Smith. This bout is to be held in London late in June and the fact that the match was made after Carpenter was in receipt of excellent offers for such a tour indicates clearly the confidence of the French pugilist and his backers. According to preliminary negotiations between M. Descamps, manager of Carpenter and "Showey" Baker, the

Australian fight promoter, Carpenter was to have received \$50,000, and expenses for three bouts in Australia. It was proposed to match him with Dave Smith, Eddie McGoorty and a third opponent with an interval of several weeks between bouts. Carpenter was expected to return to France via America, meeting several boxers of prominence while in the United States.

The rapid development of athletic spirit and competition on continental Europe under the stimulus of the Olympic games enthusiasm is well illustrated by the remarkable changes in the Hungary sport situation during the past few years. Trainer Al Copeland, the former record holding American athlete, who recently arrived at Vienna to assume the position of Olympic trainer to the Austrian team, stated just before his departure that both Austria and Hungary were making rapid strides in all forms of track and field athletics.

It is understood that some quiet missionary work is being done in England by the American golfers who are getting at Sandwich for the English amateur championship tournament. The object is to secure a representative English entry in the United States amateur tournament to be held over the Ewanok Country Club course the first week in September. It is believed that in view of the fact that fully a dozen of the leading players of the states made the journey to England it is not unreasonable to expect the entry of at least three or four of the leading

British amateurs, including Harold H. Hilton. Special efforts are being made to this end since it appears likely that the English professionals will pass up the United States open at the Midlothian course because of the early date selected for the tournament and the fact that what the English term "very tryin weather" may be expected in the middle west during the latter part of August.

**B. F. KEITH'S**

Summer Vaudeville at B. F. Keith's Theater, Columbus, will be inaugurated in that house, Monday, May 11, and continue throughout the summer.

"Summer Vaudeville" differs from "Winter Vaudeville" in the size of the bill, and in the fact that three shows are given daily. The prices are less, too. Only 10 cents and 20 cents. The afternoon show will begin at 2:30. The evening performances will begin at 7:30 and at 9:00.

There will be five or six acts of vaudeville and the motion pictures which will be selected with unusual care.

The vaudeville bills will be arranged with as much care as those of the winter season. Careful attention will be given to the arranging of every bill, in that the offerings will be diversified throughout and thoroughly entertaining.

The same care will be taken of the house. The usual cleaning force will be retained throughout the summer, and the house will be thoroughly cleaned, twice daily.

Those who come to this theater will always receive courteous treatment, and everything possible for their comfort will be in evidence.

The brightest, best and snappiest acts which can be procured through the United Booking Offices of New York City will be seen from week to week. When in Columbus, do not fail to visit B. F. Keith's Theater.

**SUNDAY PICTURES.**

Each Sunday, from 1:30 in the afternoon until 10:30 at night, there will be a continuous Motion Picture Show at Keith's Theater. The Sunday prices are five and ten cents. The pictures are all first-run, and the bill is the best in the city, from week to week. The theater is conveniently situated on East Gay street and the car facilities are unusually good. Therefore, the theater offers a delightful place to rest, while waiting for a car.

**HOW FRENCH PEOPLE CURE STOMACH TROUBLE**

A household remedy of the French peasants, consisting of pure vegetable oils, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading downtown druggists of Chicago, and who himself was cured by its use. So quick and effective is its action that a single dose is usually enough to bring pronounced relief, in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by Blackmer & Tanquary.

**HAD MADISON'S RAZOR.**

Prisoner Said He Was Fourth President's Great-great-grandson.

Savannah, Ga.—F. A. Madison, who says he is a direct descendant of President Madison, was locked up here after a street fight and after he had surrendered a razor which he said originally was the property of James Madison. The prisoner was held as a witness and then released.

Madison, who was a stranger in Savannah, was set upon and beaten by two men whom he said he did not know. His cries for assistance brought a policeman, who arrested one of the men, but was unable to catch the other. Madison also was taken to the station, and as he was being searched the policeman found the razor in the prisoner's pocket.

"Officer, please let me keep that," pleaded Madison.

"It's against the rules," replied the policeman.

"Can't you let me have it? I wouldn't

Have You Heard About "The Road to Quick Relief"?—Better Get Acquainted With Speedway.

There's more joy for you in one bottle of Speedway than in a whole year of spring days. For Speedway does take the aches and pains away. Speedway is for those tired, stiff joints—for bruises and sprains—for rheumatic limbs that make you wince every time you move.

Limber up with Speedway! Feel frisky and fine by simply applying this magic balm. It feels good when you use it—you feel like a new person afterward.

Putting it on full strength—rubbing gently until the skin glows—is just the thing. For Speedway cannot burn or blister the skin. It's as soothing and pleasant as toilet water. It cannot stain the flesh or the daintiest fabric, healing a kind and gentle remedy—and just as sure as it is agreeable.

Suppose you go—the first minute you get the chance to Blackmer & Tanquary, or Christopher's or Baldwin's and buy a bottle of Speedway. Better get the large size, and use it faithfully—then you will absolutely receive the results promised or the druggist will return your money.

Speedway was discovered and successfully used for years by a good old Scotch physician. Now it is given to the world—ready to prove your "road to quick relief." Try it now.

take anything for it," begged the prisoner. "James Madison was my great-great-grandfather and that razor and the family Bible are all of his possessions that we have left in the family now. I have been hungry and broke and without a place to sleep, but I have never parted with that razor."

He took the razor with him when he was released.

**ATTACKED BY WILDCAT.**

**Animal Killed In Air As It Leaped on Shoulders of Warden.**

Bangor, Me.—The life of Game Warden E. S. Hodgkins was saved recently in the woods near here by the quickness and unerring aim of William Ryer, proprietor of a set of sporting camps at Hound Brook lake. The two men had been hunting wildcats with dogs and had killed two of the animals. They were standing under a tree when Mr. Ryer chanced to look upward.

Perched on a branch directly above the game warden was another cat, as large again as either of those that had been killed. The animal was creeping slowly forward, his lips drawn back over his glittering teeth and the look of a demon on his savage face. Just as Ryer's eye caught the cat the animal gave a start and leaped full for Warden Hodgkins, still unconscious of his danger. Ryer, shouting a hasty cry of warning, whipped his 38 caliber revolver from his holster and fired while the cat was in the air. The bullet struck the animal between the eyes, and he dropped dead.

"It was the closest call I ever had, and I never want another like it," Warden Hodgkins said in telling of the affair.

## URGE MINERS TO WORK ON

By Associated Press.

Charleston, W. Va., May 4.—Reports from the Kanawha coal fields today indicate that many of the miners, who went on a strike last week, will obey orders of the district mine workers and return to work until the International Mine Workers can pass on their contention that they have the right to strike.

In the country east of this city, however, the situation is not so bright, leaders urging the men to stay away from the mines until all questions are settled.

## SUFF SLASHES A FAMOUS PICTURE

By Associated Press.

London, May 4.—A militant suffragette, giving the name of Mrs. Wood, made her way to the galleries in the Royal Academy and ruined the picture of Henry James, by John Sargent.

She approached the painting casually and brought out a hatchet she had concealed in her clothing and with which she slashed the picture several times. She was roughly handled before being arrested.

freely with the masses. She can be frequently seen in the Mexican cafés in the evenings, wining, dining and dancing, and one would little realize the great cares that hang over the shoulders of her soldier husband.

She loves her children dearly. Her son was recently married. The ceremony was performed about the time American Charge d'Affaires O'Shaughnessy was handed his passport by the Mexican minister of foreign relations.

Although representative of a hostile government, O'Shaughnessy, who is a close friend of the dictator's family, was urged to remain in Mexico City

not as an official representative of the United States government, but rather as a private citizen, and attend the wedding of Senora Huerta's son.

Her life is full of activity. She looks not to tomorrow and lives only for today. It is she, desirous of retaining the highest social position in all Mexico and of residing in the National palace, who urges the staunch old Indian to hold on to the last to defy the powers of the civilized world and fight for the retention of the position stained by blood of his predecessors.

Concluding his letter, Connell said the Chisana country was no place for a poor man, because all the claims were staked and prices of everything are "sky high."

Patient Had Been Burned About the Head When a Child.

Baltimore.—A rare operation in optical surgery was performed at a hospital here when three large pieces of skin were taken from the arm of Miss Sarah Trego to make a new lid for her left eye. It is thought the sight of the eye, which was rapidly failing on account of exposure, will be saved by the operation. Already the grafted skin has started to take root, and the patient can partly open and close the eyelid.

After the skin was taken from Miss Trego's arm the scarred tissue surrounding the eye and the membrane of the lid were removed. In the denuded area the skin of the patient's arm was sutured.

# Mexicans Make Demand For Surrender

Soldiers Bravely Approach Outposts and Ask Americans to Evacuate Vera Cruz Waterworks District—Retire Without Firing.

**MEDIATORS WILL WRESTLE WITH TAMPICO INCIDENT**

**Body Becomes an International Court of Honor and Will Decide Whether the Flag Was Insulted or Not, and Fix Reparation.**

By Associated Press.

WASHINGTON, D. C., MAY 4.—ANOTHER FRUITLESS DEMAND BY MEXICAN SOLDIERS FOR THE SURRENDER OF THE WATERWORKS, JUST OUTSIDE OF VERA CRUZ WAS REPORTED TO THE WAR DEPARTMENT TODAY BY GENERAL FUNSTON. THE REPORT SAID THE MEXICAN OFFICERS CALLED UPON THE AMERICAN OUTPOSTS TO SURRENDER, BUT MADE NO VIGOROUS EFFORT TO ENFORCE THE DEMAND. THE MEXICANS RETIRED AND NO SHOTS WERE FIRED. GENERAL FUNSTON HAS ASKED FOR INSTRUCTIONS AS TO CONTEMPLATED STEPS.

**NAME MEN FOR MEXICO**

By Associated Press.

Washington, D. C., May 4.—General Huerta's acceptance of the request of the Latin-American envoys that he send delegates to confer with them in efforts to mediate the difficulties between Mexico and the United States was announced today at the state department, together with the names of two of the Mexicans who will represent the Huerta government in the negotiations. The mediators at a conference with Secretary Bryan communicated to the department that Gen. Huerta had selected to represent their interests in the negotiations. D. Emilio Rabasa, Mexican jurist, and Augustine Garra Galindo, of the department of Justice in Mexico. It was further announced that a third delegate to represent Huerta would be named tomorrow. Following the conference Secretary Bryan made public the information from Mexico City which Huerta had communicated first to the mediators through Ambassador Riano of Spain. The further announcement was made that no delegates to represent the United States had been selected. Mr. Bryan would not discuss the details of the conference.

Mr. Rabasa is a close friend of Gen. Huerta and it is believed here that he was his personal choice. He once had been chosen by Huerta to be ambassador to the United States in case this government had recognized the Huerta regime.

A general understanding after the State Department conference was that the mediators had decided to limit their activities at this time to a settlement of the Tampico incident solely, and that the appointment of Huerta delegates was made on that basis. This would constitute the mediators an international court of honor, to decide on whether the United States was entitled to reparation for the "insults" to the flag at Tampico and what form that reparation should take. After that point was settled they would be confronted by the question of indemnities which probably would be claimed by United States for its Vera Cruz expedition and the other expenses incident to the present difficulty. In considering indemnity the question would again be raised as to whether the Huerta government, not recognized by the country, could properly be held for indemnity.

**COUCH LETTERS IN BITTERNESS**

Washington, D. C., May 4.—The Constitutionalists and Huerta lead-

ers at Manzillo have been exchanging very bitter messages, according to reports sent to the Navy Department from Rear Admiral Howard, who read some of the letters. Rear Admiral Howard said that all is quiet at Manzillo. He made no mention of the blowing up of the Mexican liner Luela.

**ANTI-AMERICAN DEMONSTRATION**

By Associated Press.

Brussels, Belgium, May 4.—Under the direction of the local Hispano-American commission there was a demonstration in this city in favor of Mexico and against the United States. Several hundred, chiefly University students, participated.

The demonstrators marched with flags to the Mexican legation where speeches were made on the subject of American aggressions in Mexico.

**TO MEET DEAD**

By Associated Press.

Washington, D. C., May 4.—President Wilson plans to go to Brooklyn and meet the Montana which is bringing to the United States the bodies of the men who were killed at Vera Cruz. This statement was made by Secretary of the Navy Daniels, after a conference with the President.

**BRINGS REFUGEES**

By Associated Press.

New York City, May 4.—The Ward Line steamer Gauntanamo arrived today from Tampico and Vera Cruz with 20 refugees from Mexico, 18 from Tampico and two from Vera Cruz. They are mostly women and children.

**CONTINUE THE CASE**

By Associated Press.

Columbus, Ohio, May 4.—After a panel of jurymen had been issued today and several jurymen tentatively selected, the trial of Wm. L. Finley, Emory Lattanner and M. A. Goler was continued until Wednesday. The three men were indicted for violating the State Civil Service law by soliciting funds for the Democratic Press bureau.

**BOARD JAILED**

By Associated Press.

Chicago, Ill., May 4.—Eight members of the Board of Education, including the President, were sentenced today to 30 days in the county jail for contempt of court for refusing to obey the order of Circuit Judge Foell, reinstating four members of the board. The situation hinges on a dispute over the retention of Mrs. Ella Flagg Young as superintendent of the schools.

**BANDITS KILL A POLICEMAN**

By Associated Press.

New York City, May 4.—Police-man William J. Kelley was mortally wounded by two hold-up men in Brooklyn early today, after they had shot and killed a Greek restaurant keeper.

The Greek was killed after he had refused their demands for money, and the policeman was shot while pursuing the murderers.

Christopher Dunn, 24, was arrested, charged with participation in the crime. A companion escaped. Kelley is the third policeman shot by crooks in Brooklyn recently. He died later.

**LEGISLATION TO BE PASSED UPON**

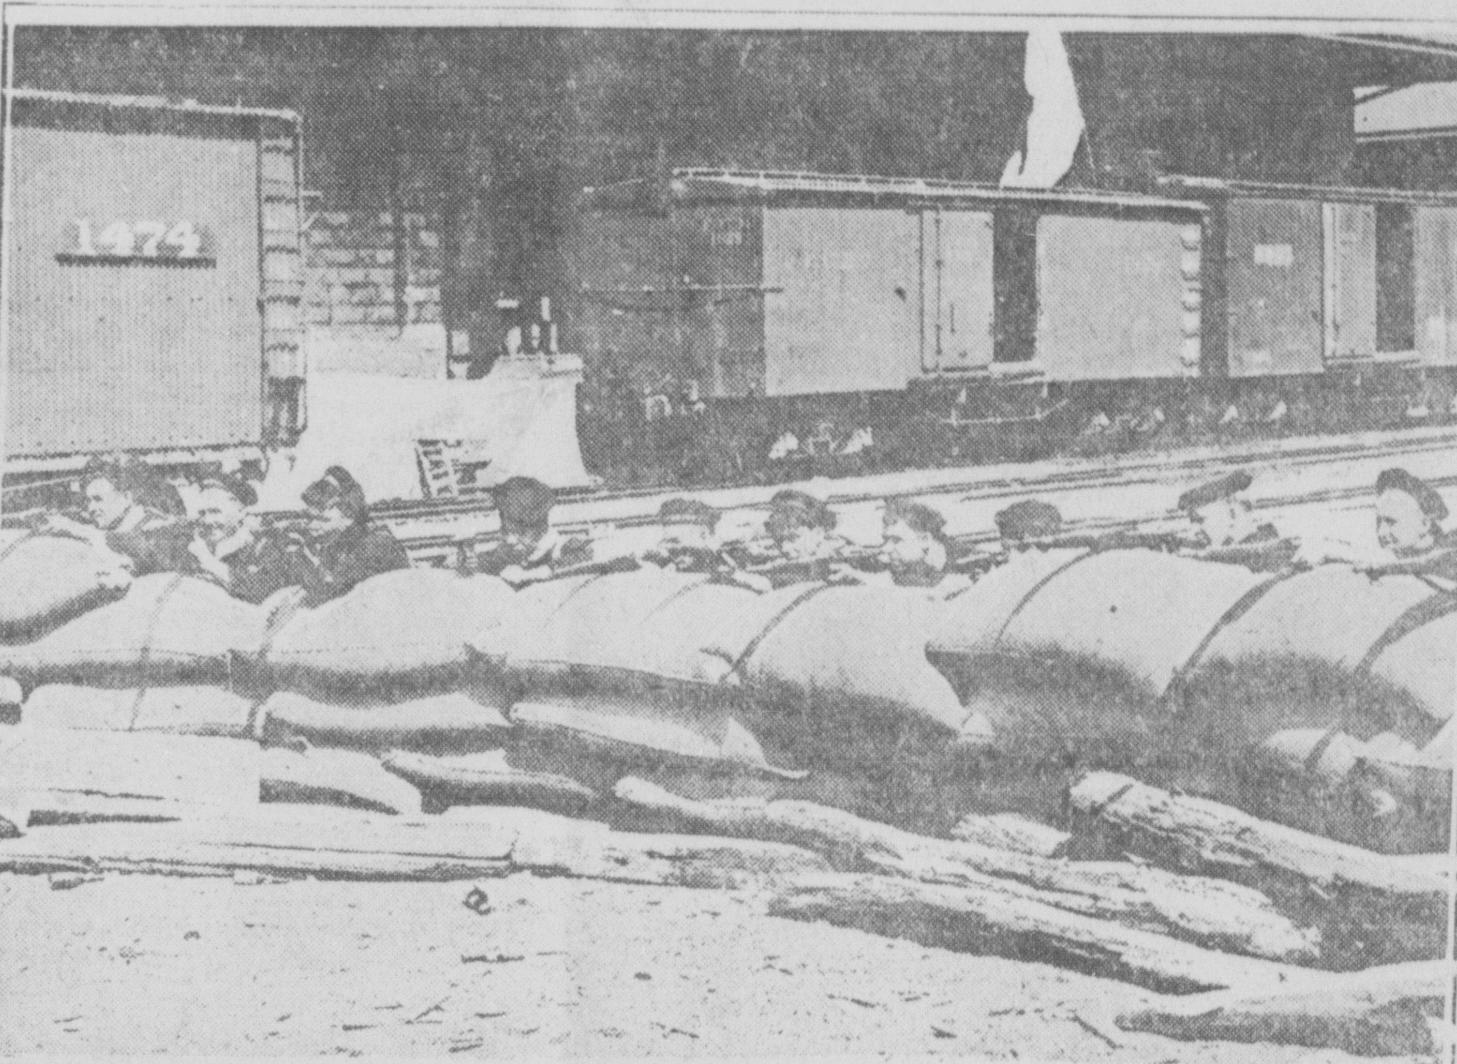

By Associated Press.

Washington, D. C., May 4.—After a conference with President Wilson today, Majority Leader Underwood announced that an agreement had been reached to put through the Clayton Omnibus Anti-trust bill, the Covington Interstate Trade Commission bill and a bill to regulate the issuance of stock securities, as well as a rural credit measure, before Congress adjourned.

Mr. Underwood announced that he would call a Democratic caucus to ratify the program which he arranged with the President and that it was the aim of the President and himself to have Congress adjourn by July 1st. He said that the Mexican situation might at any time absorb the attention of Congress and interfere with the program, but he did not see any prospect of such development as yet.

**FIRST PHOTO OF ACTUAL FIGHTING WHEN U. S. CAPTURED VERA CRUZ**

Vera Cruz, May 4.—The United States forces now control the entire city of Vera Cruz and the country within a radius of sixty miles. The illustration shows how Uncle Sam's Jack tars fought in the streets when they drove the army of General Maas out of the city. Barricades of this description stopped hundreds of Mexican bullets. This striking photo was taken at great risk by Adrian C. Duff, a staff photographer of the American Press Association. He was the first man to take photos of New York City and the Atlantic coast from an aeroplane.

**OLNEY GOVERNOR OF THE RESERVE BOARD**

By Associated Press.

Washington, D. C., May 4.—President Wilson has appointed Richard Olney, 78, Secretary of State during Cleveland's administration, Governor of the Federal Reserve Board, and Paul Warburton, of New York, a mem-

ber of the board.

Mr. Olney has not yet accepted. He was appointed Ambassador to Great Britain by President Wilson last year, but expressed an unwillingness to leave the country on account of business interests.

**WOULD PICKET STANDARD OIL IN WHOLE LAND**

By Associated Press.

New York, May 4.—Upton Sinclair, who first conceived the idea of picketing Rockefeller's office, today sent a telegram to Walter Lanfarsick, National Secretary of the Socialist party, in Chicago, asking that "mourning pickets" be placed before every branch office of the Standard Oil Company in the United States.

**\$3,000,000 IN FAILURE**

By Associated Press.

Washington, D. C., May 4.—Reports that Americans had been killed in San Pedro Chiapas, were denied at the State department today.

**ENTOMBED ALL DEAD**

By Associated Press.

Eccles, W. Va., May 4.—Foul air in the galleries hampered the work of removing the bodies from Mine No. 5 of the New River Coal Company today, but by noon 100 dead had been brought to the top of the shaft. All the victims of last Tuesday's explosion were in sight and rescuers hoped to have the mine clear of the dead by tomorrow. Many funerals took place

By Associated Press.

Valparaiso, Chile, May 4.—More than 50 lives were lost early today in a fire in the commercial section of the city. Several buildings were destroyed.

**SOLONS WANT TO SQUIRM OUT**

By Associated Press.

Denver, Colo., May 4.—The Colorado legislature convened in extra session in response to a call from Gov. Ammons, to consider matters in connection with the coal strike. Administration supporters are said to favor the payment of the militia, but opponents declare that if such legislation is attempted an attempt will be made to bring about the governor's impeachment.

A suggestion was heard that the Senate and House appoint a joint committee to investigate the strike and report to the Twentieth Legislature, to convene next January, and then adjourn sine die, leaving the present situation to be handled by the Federal authorities. Such a course would mean no provision for meeting the military indebtedness, which is now estimated at \$1,000,000, and no attempt to carry out the legislative program contained in the Governor's call. Labor leaders continue to express confidence that they will be able to carry out the avowed program for Governor Ammons' impeachment.

# HUERTA PREPARES TO MAKE FLIGHT

Carranza Replies to Mediators' Request For Armistice.

HE NAMES TWO PEACE ENVOYS

Desires To Be Represented at the Mediation Conference, but In the Meantime He Says He Proposes to Complete the Conquest of Northern Mexico — Would Give Huerta No Advantage.

El Paso, Tex., May 4.—Constitutionalists in Mexico will not remain inactive while the A B C alliance mediation board is arranging for peace in Mexico. This was stated emphatically by General Carranza, in a reply to the request of the mediators that hostilities be suspended pending the adjustment of the Mexican situation.

Carranza takes the position that it would be giving Huerta too great an advantage for the rebels to let matters rest just when they have every opportunity for making the conquest of northern Mexico complete. Carranza wishes representation at the meetings and as representatives the mediation conference he has named Rafael Zubaran Capman, minister of gobernacion in the Constitutionalists' cabinet, and Luis Cabrera, one of Carranza's confidential advisers.

General Carranza in his reply said: "I again direct myself to you for the purpose of answering your respectful message relative to an armistice, calling your attention to the fact that the International conflict with the United States was intentionally provoked by Huerta, and for the solution of which I hurriedly accepted in principle only the good offices of Brazil, Argentina and Chile, and which acts are independent of our internal strife for liberty and law. I consider it inconvenient for the Constitutionalists' cause that I represent."

## PREPARING FOR SALTILLO BATTLE

Chihuahua, Mexico, May 4.—Federal forces are strongly fortifying Saltillo and preparing to make a desperate stand against the rebel forces of General Villa. Advices from the front say that 1,800 federal reinforcements have reported to Saltillo, bringing the strength of the federal garrison there up to more than 12,000 men.

The rebel advance against Saltillo has become general. General Villa began entraining troops at Torreon for San Pedro de las Colonias. As the railroad line between San Pedro and Monterrey is still out of commission, the forces sent to San Pedro will march overland from that point to Monterrey and thence to Saltillo. Villa has 18,000 men to send against Saltillo, and practically the whole force now is moving to the attack.

It is stated by rebel leaders that General Villa will devote his whole attention to Saltillo, leaving the Tampico situation to Generals Gonzales and Villareal.

## DOCTOR PARDONED

Chihuahua, Mexico, May 4.—Manuel Chao, governor of Chihuahua, has granted an unconditional pardon to Dr. Carlos S. Harle, the Abilene, Tex., physician who was sentenced to life imprisonment in the Chihuahua penitentiary in connection with a life insurance swindle, in which Harle and two others were alleged to have conspired to cause the death of two men to secure \$25,000 on an insurance policy in the New York Life Insurance company.

## HUERTA WAVERS

Washington, May 4.—Information received in Washington within the last 24 hours has strengthened the belief that Huerta's day in Mexico is rapidly drawing to a close. Officials here are confident that the utter collapse of the dictator's power will come within a few days. They would not be surprised to hear of his resignation at any moment. The continued victories of the Constitutionalists and uprisings in Mexico City itself are expected to bring about Huerta's downfall.

Washington was alive with rumors of an impending change in Mexico City, and although no official information was given out on the subject, it was apparent the administration had reason to credit them. One of the reports that reached Washington from Mexico City through unofficial sources was that Huerta was about to signify his intention to resign provided he would be assured of safe conduct from the country.

## REFUGEES WILL ASK PROTECTION

Washington, May 4.—It was announced by telegraphic advices from Galveston that a committee representing the 3,000 American refugees is coming to Washington to inquire what the government intends to do in regard to Tampico. A telegram from an American business man now at Galveston, who has big concerns at Tampico and was taken from that port with the refugees, reached Washington. It sharply criticizes the attitude of this government, and alleges that Americans have been driven from their homes and that millions of dollars' worth of American property has been abandoned to the mercy of the Mexicans.

## BODY RECOVERED

Laredo, Tex., May 4.—The body of Porfirio Lauret, an American ranchman, who disappeared last November, was recovered from a grave near Nuevo Laredo, Mexico. Lauret had been arrested by Mexican federales, who persistently denied reports of his execution, and until the body was exhumed the mystery of the Texan's absence was unexplained.

## SAILS WITH DEAD

Vera Cruz, May 4.—The armored cruiser Montana sailed for New York with the bodies of the marines and sailors who were killed after the American troops landed here two weeks ago. All the bodies will be taken to New York, whence they will be shipped to the homes of the dead heroes.

## GERMANS GUARD

Vera Cruz, May 4.—W. W. Canada, the United States consul here, says he understands that German marines have been landed at Acapulco, where the anti-American sentiment is very strong. The German sailors escorted American refugees to the German warship in the port, whence they will be transferred to an American vessel later on.

## BLOW UP STEAMER

Washington, May 4.—It is reported that the Mexican steamer Luella was blown up in the harbor at Manzanillo by a mine which was intended for Raleigh.

## WOUNDED BETTER

Washington, May 4.—Admiral Baigorria reported that the 55 wounded at Vera Cruz are all doing well.

## CONSULATE IS ROBBED

Americans Forced to Flee From Manzanillo.

Washington, May 4.—American Consul Stadden of Manzanillo, who arrived at San Diego, Cal., aboard the German steamer Marie with 259 refugees, reported to the state department that Mexicans on the day of his departure had taken American flags from the consulate, trampled upon them and burned them. He and his fellow Americans had been given 48 hours to leave Mexico dating from noon April 22.

Adolph Steff, the Norwegian consul at Manzanillo, was forced to flee to save his life and boarded the Marie as a refugee, after placing the archives of the consulate on the steamer Leonora, a Mexican vessel, but owned in San Francisco.

Consul Stadden said that the treatment given the Americans was "horrible." Had it not been for the good offices of the British and German consuls, he said, many Americans in the Colima district would have been "slaughtered."

## THEN AND NOW

### THEN

One hundred and twenty years ago occurred the events which resulted in an insurrection for the independence of Ireland. At midnight of that day Dublin was in an uproar. The doors of a local legislative reform club, a branch of the United Irishmen Society, burst open with a crash. In the doorway stood the scarlet-coated soldiers of the King, covering the assembled Irishmen with their guns. The leaders were arrested and carried off to jail for treason.

From this moment dates the insurrection that was fought out four years later. Ireland was flooded with government troops, but the Society grew rapidly. Oaths of membership and secrecy were administered. Pikes and munitions of war were secretly distributed and hidden for the uprising. The Society had over 500,000 members at the beginning of 1798. Stern measures to stamp out the rebellion were instituted.

The insurrection began near Spafford on the 24th of May. It raged for a month, closing in the battle of Vinegar Hill, with victory for the government. The rebellion cost the lives of 150 Irishmen and 20,000 English.

Three years later the Irish Parliament was removed from Dublin and united with the English at London.

### NOW.

Today, after more than a century under the rule of the Parliament at London, it is proposed to restore the Irish Parliament taken away in 1801 and to give Ireland home rule. The country is split in two over the proposition. The province of Ulster at the north declares against the proposal, while the balance of Ireland demands it.

The House of Commons has twice passed the bill, and the third passing when the bill becomes a law, is near. More than 100,000 men of Ulster stand in defiance against the proposed government. They are organized into a citizen army with some of Great Britain's greatest soldiers as their leaders. They are learning how to shoot straight.

Munitions of war are being gathered. A fund of \$5,000,000 is being raised for the support of the dependent relatives of the volunteers who may be killed or wounded in the fighting.

The leaders of the government are striving to avert civil war by conciliatory measures. More than 25,000 British troops are assembled today in the government barracks in Ulster to put down any uprising.

## WOULD HAVE STATE USE FARM FOR PARK

Hon. John Bryan, millionaire Greene county agriculturist, dreamer and writer of fables, was a visitor at the office of the Republican a few days ago and at that time made a statement that under his will all of his beautiful farm of 500 acres located near Yellow Springs, is bequeathed to the State of Ohio on condition that the state convert it into a great state park and agricultural equipment station, says the Xenia Republican.

Under his will, if the state refuses to accept the property on the conditions mentioned Greene county may take it under like conditions. If neither the state nor the county will accept the property it will revert back to Mr. Bryan's estate and will be divided among his heirs.

More beautiful scenery than that which may be seen on the Bryan farm which has a water front of more than a mile on either side of the Little Miami river, can not be found in the state of Ohio. On this farm and in the territory surrounding Clifton and Yellow Springs is found scenery which many people say rivals the magnificent scenery of the Rocky Mountains. Mr. Bryan himself says that the scenery on his farm and at Clifton and Yellow Springs is just as beautiful and picturesque as the scenery in the Rocky mountains, only on a smaller scale.

## HERRICK DECIDES

Columbus, O., May 4.—Myron T. Herrick, ambassador to France and governor of Ohio 10 years ago, is to seek the Republican nomination for United States senator to succeed Theodore Burton, according to announcement made here by his friends. They say that Herrick will return to Ohio on a leave of absence within the next two weeks and make formal announcement. State leaders are interested in the prospects of Mr. Herrick entering the race. Herrick petitions will be circulated this week.

## War Shaken Colorado

Absorbed as is the nation with the war with Mexico, the mine strike war in Colorado has been less prominent in the public eye, and the appalling fact that there is a condition of genuine warfare existing in the heart of our civilized domain has created far less consternation than its horror warrants.

When the wires flashed the news that four Americans were killed and twenty wounded at Vera Cruz, people rose up in indignation; when dispatches said, "Forty-five dead, twenty injured," in Colorado, the same public, inflamed as it was with patriotic zeal to demand reparation from Mexico, minimized the atrocious condition in Colorado by scant attention.

Yet in this terrible strike war is involved one of the most imperative factors in operating a successful government—that of industrial peace.

It is not our purpose to enter into a discussion of the respective merits and rights of this controversy, but to call attention to the fact that such a condition could be possible in the country which has been the strongest advocate for a Peace Congress and in the most civilized era of the world's history.

That war actually exists in Colorado is not to be doubted by those who read the newspapers.

No mere conditions of rioting exist; the fighting has assumed the fierceness of the battle. As one reliable report states, two hundred of the state militia were ranged on one side against double that number of striking miners. In close proximity to the mines owned by the Colorado Fuel and Iron company, sheltered by big boulders, armed with ammunition, the army of miners, largely foreigners, Italians, Greeks, Poles, Austrians, etc., waged this war through day and night.

And according to reports, as is the case in warfare always, innocent children and women suffered.

The Ludlow camp is a mass of charred debris, and buried beneath it is a story of horror unparalleled in the history of industrial warfare. In the holes which had been dug for their protection against the rifle's fire, the women and children died like trapped rats when the flames swept over them. One pit disclosed the bodies of ten children and two women".

Conditions have gone from bad to worse and six troops of cavalry, ordered out by President Wilson, at the urgent solicitation of Senator Thomas, of Colorado, now preserves order.

Friday, the Executive Board of Ohio miners went into session and President Moore gave out the statement that 45,000 miners of Ohio would go on a strike next week.

As in a large majority of the serious labor trouble of the country, the real bone of contention seems to be the recognition of the Union.

As in former great strikes not alone is a great industry paralyzed, and the conflict marked with loss of life, injuries and suffering; many related injuries are badly crippled and the public will be vitally effected by this war in Colorado.

The lesson of this war strike looms prominently, and demands that there be some adjustment of conditions so that this continual disturbance of industrial peace need no longer be a constant menace to the happiness and prosperity of our government.

## Walls of Sing Sing Prison Should Be Razèd; It Is Nothing but a College of Crime

By Bishop DAVID H. GREER of Protestant Episcopal Diocese of New York

© by American Press Association.

SING SING SHOULD BE ABOLISHED, AND FOR THE SAKE OF SOCIETY ITS WALLS SHOULD BE RAZED. AS A SUBSTITUTE SUCH PRISONS AS WE HAVE AT GREAT MEADOWS, WHERE WE AIM TO PUNISH, BUT AS WELL TO REFORM, SHOULD BE BUILT. I RECENTLY WENT TO SING SING. I WAS LOCKED FOR A FEW MINUTES IN ONE OF THE CELLS. THEY ARE DARK, DAMP AND IN EVERY WAY DEPRESSING, WITH NO SANITATION AT ALL EXCEPT A BUCKET. THEY ARE MENTALLY, MORALLY, PHYSICALLY AND FROM EVERY POINT OF VIEW SUCH A PLACE YOU WOULD NOT PUT YOUR DOG IN. IF YOU DID, HE WOULD GO MAD.

Sing Sing prison is a college of crime. IT BREEDS CRIME IN THE COMMUNITY. It is not only a college of crime; it is a pest house. It breeds pestilence in the community. It is not only criminal on the part of the community for itself; it is a STUPID BLUNDER ON THE PART OF THE COMMUNITY AGAINST ITSELF. If it be true that we have a criminal class incapable of reform the state is responsible for it in no little measure through the maintenance of such places as this.

## Poetry For Today

## EVEN SONG.

The robins were singing at twilight—  
Their songs were deliciously sweet  
And the afterglow fell through a sky  
light

Of featherly leaves to the street.  
The southwind was tenderly blow-

ing.  
As if from the isles of the blest,  
And the beautiful sky was still glow-

ing  
Where the sun had gone down in  
the west.

The winds carried many a vagrant  
And sweet willy-nilly perfume;  
The breath of the meadow was fra-

grant,  
And the apple tree snowy with  
bloom.

The shadows stole under the high  
light

That swept up the sky from the  
west;

The robins were singing at twilight,  
And the world had come around to  
its rest.

GEN. SICKLES

## HAD BEEN AILING FOR MONTHS

Warrior and Statesman Dies In the Presence of His Wife, From Whom He Had Long Been Estranged. Sketch of the Man Credited With Having Saved the Day at the Battle of Gettysburg.

New York, May 4.—Major General Daniel E. Sickles died last night at his home in Fifth avenue. He had been quite ill since March, when he suffered a hemorrhage. A week ago last Thursday there was another hemorrhage and the aged general was confined to his bed. Mrs. Sickles and her son, George Stanton Sickles, moved into the house a week ago last Tuesday, and while they are reticent, it is understood a reconciliation was effected.

There was a marked change in the general's condition Sunday and at 4 o'clock in the afternoon he began to fail. The last rites of the Roman Catholic church had been administered by the Rev. Father Avard of St. Joseph's church. He died at 9:30 o'clock.

General Sickles was born in this city Oct. 20, 1820. He was the last of the great commanders of the civil war. He led his men in battle with consummate bravery and distinction. At the last he turned the tide at Gettysburg and earned a soldier's immortality.

He was a congressman when the civil war began, and responded to Lincoln's first call for volunteers. In 1862 Sickles, with 1,000 picked men, defeated the outposts of General Longstreet's army at Stafford's Court House. In November of 1862 he was made a major general of volunteers and had command of the Third corps at Chancellorsville.

General Sickles commanded the Union left at Gettysburg. His capture of Peach Orchard Ridge checked Longstreet's forces from working their way into the rear of the Union army. Many men were killed at Peach Orchard Ridge. This portion of the battlefield was called the "bloody angle." Sickles' knee was shattered by a shell during the engagement, the leg being amputated the same night.

Killed Wife's Betrayer.

General Sickles had just begun his second term as congressman in 1859 when the national capital was stirred by the news that the young representative from New York had shot and killed Philip Barton Key, attorney for the District of Columbia. Sickles declared that Key had misled Mrs. Sickles, who was Theresa Puglioli, daughter of an Italian music teacher. The trial lasted 20 days, ending in the acquittal of Sickles on the ground of "unwritten law." He then took his erring wife back. Mrs. Sickles died of a broken heart a few years later.

In 1869 Sickles was appointed minister to Spain by President Grant.

At the court of Spain, Sickles' vigorous personality made him a dominating figure. Four years of brilliant diplomacy brought him the epithet of "The Yankee King of Spain." Here he contracted his second marriage, with the beautiful and distinguished Señorita Creagh. This romance was followed by an estrangement which was to last more than a quarter of a century.

## OLD LID, GOOD BYE!

Next Wednesday has been selected as the day for the celebration of Old Hat Day. Then all the ancient and honorable and moss-covered buckets and lids will appear in gorgeous assemblage and the college will look as rakish as possible. Last year the day was a great success, the girls especially coming out in head coverings that were even beyond the wildest dreams of the most talented French designers.

In the evening in accordance with the usual custom all the old hats will be collected and burned on or near the Campus and this will bring the celebration to a close.—Athens Messenger.

BLUE READY FOR  
MEXICAN WARTo Him Is Intrusted Duty of  
Supplying Vessels.

## FOUGHT IN CUBA IN 1898.

By Giving Cubans Whisky He Was Enabled to Draw Map Showing Exact Location of Spanish Vessels—Story of Brave Exploits and His Promotion In the Service.

Washington.—Do you remember what the governor of North Carolina said to the governor of South Carolina?

Well, the application of that immortal principle made Victor Blue famous.

Just now he is Rear Admiral Blue, in command of the bureau of navigation of the navy department. That bureau is to the navy a good deal what a peculiarly broad gauged train dispatcher, with collateral authority over the general manager, might be to a railroad. It practically runs the department. During the war with Mexico it will be Blue's duty to see that the ships are provisioned and coaled and manned. Between times he will give the commanders their sailing orders. The chief of this bureau is the eyes and legs and right hand of the average civilian secretary of the navy.

When he was Lieutenant Blue, Sampson's fleet was lying outside Santiago harbor waiting for Cervera's fleet to come out. It didn't come. No one was even positive that it was in.

"I'll find out," said Blue.

He went ashore alone, depending on the guidance and escort of the Cuban patriots who were camped in the tall grass therabouts. The patriots had been badly skinned up that day in a sharp skirmish with the Spaniards. The Cuban chief was one of the roughest Cuban chiefs Blue had ever encountered. Wounded patriots were lying all over the camp groaning. Lieutenant Blue asked for guides and an escort.

"Not a man!" said the savage general.

He meant it. That was obvious. So Blue didn't argue the case with him.

REAR ADMIRAL VICTOR BLUE.

But in his slender baggage were two bottles of the best whisky that ever softened the heart of man.

"My general," said Blue softly, "will you join me in a toast to Cuba Libre?"

Would he? He did. Blue handled

the bottle and filled a tumbler so full of whisky that it dribbled down the sides. The general began to gaze on him with misty and affectionate eyes.

"My general," said Blue, "before I go, will you join me in a toast to the allies—the United States and

# EXTRAORDINARY CASE AT FAYETTE HOSPITAL

Life of Little Girl, Who For Two Years Has Lived by Breathing Through Silver Tube in Throat, Threatened.

## TUBE IS PULLED OUT DURING PLAY

Mother Finds Child Smothering to Death, Inserts Emergency Tube, and Rushes Babe to Local Hospital Where Efforts to Reinsert Tube Fail—Child is Daughter of Dr. Wm. Francis, of South Charleston, and Father is on Way to This City.

One of the most extraordinary cases in the history of the Fayette hospital, is that of a patient which entered the hospital Monday morning.

The new patient is Mary Elizabeth the five-year-old daughter of Dr. and Mrs. William Francis, of South Charleston, who for more than two years past has been forced to breathe through a silver tube inserted in the windpipe, and early Monday morning while playing at the home of Mr. and Mrs. William Gibson, in Yatessville, the child accidentally pulled the tube from its throat and almost smothered to death before an emergency tube could be inserted to take the place of the tube regularly used.

Mrs. Francis and the children had come down from South Charleston on Sunday, to spend a few days with Mr. and Mrs. Gibson, Mrs. Francis being a former resident of northern Fayette.

While Mary Elizabeth and the other

children were playing, a cord about the child's neck which held the silver tube in place, snapped, and the tube was pulled violently from the incision in the windpipe. The incision immediately closed and the child fell to the ground. The other children spread the alarm and the frantic mother rushed to the dying babe and inserted the emergency tube, temporarily relieving the afflicted child.

As the small tube is insufficient to afford enough air, it became necessary to rush the child to the nearest hospital.

Mr. Fred Groves was summoned, and within a few moments he had the child and its mother in his automobile and was speeding to the hospital in this city, while a long distance message apprised the father in South Charleston of what had occurred, and he expected to reach Washington some time Monday afternoon.

At the hospital it was found impossible to insert the tube which had been jerked from its location. The mother refused to have the incision enlarged, and the matter was allowed to rest until the child's father, Doctor Francis, arrived.

It is thought that it will be necessary to enlarge the incision to permit the insertion of the tube, or probably take the child to an expert in Columbus. At last accounts Monday afternoon the little patient was resting easy.

The original operation and insertion of the tube was performed some two years ago, when the child's life was threatened owing to the larynx becoming closed.

The case is a most unusual one, and the sadly afflicted little tot has a world of sympathy because of its serious handicap.

## INCORRIGIBLE YOUTH WANTED FOR THEFT OF SISTER'S HAT

Orville Stookey Now Accused of Stealing From Sister and Father—Disappears When he Learns Police Are After Him—Incorrugibility Apparently Incurable.

Orville Stookey, the youth who cannot stay out of trouble for any length of time, is again wanted by the police.

This time young Stookey is charged with the theft of his sister's hat and bracelet, and a set of harness belonging to his father.

What disposition he has made of the harness he stole from his father, is not known, but it was soon ascertained that he gave his sister's hat and bracelet to Bessie Hickman, and the girl was given until Monday afternoon to return the stolen articles or their equivalent in money.

## YOUNG WESTERNS BITE DUST AT HANDS OF ATHLETICS

Reno Scores Another One by Clever Twirling and Visitors Get Little End of 9 to 3 Score—Corwin Meets With Accident in Seventh—Vauters Is Some Hitter—Gem City Reserves Will be Here Next Sunday.

A large crowd, taking advantage of the ideal weather, journeyed to the Athletic park Sunday afternoon to witness the contest between the Young Westerns, of Columbus, and the Washington Athletics, and found much to their surprise that Reno had little trouble in spoiling the Westerns' reputation of heavy hitting and piling up large numbers of runs,

A week ago the Westerns defeated the Newark team by a 24 to 4 score, but the best they could do to Reno's slants and curves, was to get four measly bingles during the game, which, in connection with five errors were good for three runs.

During the first six innings the visitors did not secure a safe hit. While the game was rather slow, with many errors on both sides, some sensational plays were made by each team.

In the seventh inning Corwin, the local short stop, had the misfortune of sustaining a badly broken nose, and was carried from the field. Corwin was in the act of picking up a hot grounder, when the sphere struck a raise in the ground and in a twinkling the ball had struck him with terrific force fully upon the nose, badly fracturing the bones of his nose, and putting him out of the game. A physician was upon the scene within a few moments and dressed the fractured nose. Corwin pluckily remained on the bench during the remainder of the game.

Next Sunday the Athletics will play the Gem City Reserves, of Dayton. This is the team that played here Hyer.

## In Social Circles

Miss Mary Dahl entertained Saturday evening with a beautiful six o'clock dinner at the home of her parents, Mr. and Mrs. H. B. Dahl, in compliment to her guest, Miss Elizabeth Earnshaw, Columbus, one of her classmates at the Columbus School for Girls.

The table was a vision of spring loveliness with an exquisite center basket of pink shaded apple blossoms over which fluttered dozens of airy butterflies. The favors were butterfly boxes of bonbons.

Seated with the pretty young hostess and her guest were the young girls of the Algonquin club, Misses

Doris Willis, Virginia Campbell, Helen Baker, Aileen Hess, Ruth Grafton, Marion Whelpley.

The dinner hour over the delicious courses served was a merry one. Mrs. Dahl and daughter, Miss Charlotte, assisted in entertaining.

Mr. and Mrs. Charles Baker entertained Miss Addie Baker, of Dayton, Miss Emma Baker, of Springfield, Mr. and Mrs. Herbert Leach and daughter, Wilma, Mr. and Mrs. Leroy Baker and Mr. and Mrs. Charles Matthews and children, Hazel, Guy and Sunday, at a most enjoyable dinner

# SOLONS SEEKING AMMONS' SCALP

Talk of Impeachment Heard In Denver on All Sides.

## GENERAL ASSEMBLY CONVENES

Entire Membership of Company A, Colorado National Guard, Facing Courtmartial and Civil Trial For the Killing of Women and Children. Militia, Mine Guards and Miners To Be Disarmed.

Denver, Colo., May 4.—With the entire membership of Company A, Colorado National Guard, facing both courtmartial and trial by the civil authorities on charges of murder as a result of the killing of two women and 11 children in the destruction by fire of the Ludlow tent colony on April 20, the real interest in the strike situation centers in Denver.

The state legislature convened today with nearly every member present. Before the session opened numerous secret caucuses were held in the big hotels. On every side it is reported that well defined plans to impeach Governor Ammons and probably Lieutenant Governor Fitzgerald have been formulated.

That a resolution to impeach Ammons will be introduced is virtually certain. Whether the house will adopt

such a measure is not known. The report submitted by the military commission, a board created by Governor Ammons himself, finding that the soldiers deliberately set fire to and looted the tents where the women and children were cremated, will be urged as the strongest evidence of Ammons' alleged inability to govern the state.

A body of women, at least 300 of them, will march on the statehouse this afternoon and demand an audience. These women members of the Colorado Woman's Peace League sent a committee to Ludlow to investigate the situation. This committee has returned with the report that not half of the horrors of what they term the massacre of the women and children has been told.

There are 86 men in Company B who are held responsible by the coroner's jury for the Ludlow tragedy. The district attorney at Trinidad said that he probably would wait before taking any action toward criminal prosecutions until he sees what is to be done toward courtmartialing the men.

Major W. A. Holbrook, in charge of the federal troops in the Trinidad district, let it be known that he has construed Secretary Garrison's proclamation as to the disarming of all persons in the strike zone who are not in the active service of the United States army to include members of the Colorado militia as well as strikers, mine guards and others. Consequently the order is being carried out on that theory.

All of the arms in the district are being collected and given into the hands of the federal troops.

# LEAPS TO HIS DEATH

Thousands Witness Flight and Tragedy at Akron.

Akron, O., May 4.—H. P. Harris, aviator, making an exhibition flight here, met instant death in a 600-foot fall when the left wing of his Curtiss biplane broke entirely from the machine. He jumped from his seat when 100 feet from the ground. His neck and back were broken and death occurred before a hospital could be reached.

Thousands of spectators witnessed the flight and the tragedy. They had seen Harris make several daring spirals and dips at high altitudes. It was in making a sudden dip that the strain became too much for the wings. Harris had been in the air 15 minutes and was preparing to land. He was 35 years old and married.

In his fatal flight the aviator had prepared to take a woman passenger who had asked the opportunity of making the trip. She took her seat beside him, but stepped out and refused to go just before the machine started.

## SEEKS TALKFEST

Columbus, O., May 4.—Former Congressman John J. Lentz, who has entered the race for the Democratic nomination for United States senator from Ohio, has addressed a communication to his Democratic rivals who are seeking the nomination, challenging each to a debate on the issues. Mr. Lentz says: "I submit that the first question for each of us to answer is, 'What did we do while the progressive and advancing Democracy were fighting their way to a successful issue?' The next question is, 'Have we held any office?' If so, what kind of service have we rendered, that of a timer or a leader?"

## FIRE PROBE ARRESTS

Canton, O., May 4.—Four men, giving the names of Ross Mallott, Charles H. Seeley, Patrick Rafferty and Frank Seeley, were arrested here in connection with the investigation of the incendiary fire which caused \$100,000 loss to the J. H. McLain Manufacturing company's plant. Mallott is a member of the molders' union, which called a strike on the McLain plant a month ago.

## VOTE ON CHARTER

Columbus, O., May 4.—With the prospect of a very light vote, Columbus will tomorrow vote on a new charter, which, if adopted, will take effect Jan. 1, 1916. The charter, drawn under the home rule provision of the state constitution as amended two years ago, provides a modified federal plan of city government, the commission-manager plan having been rejected.

## VISIT JOHN D.

Tarrytown, N. Y., May 4.—The agitators who are making demonstrations against John D. Rockefeller and John D. Jr., came to Tarrytown to begin a series of daily processions up and down the road in front of the entrance to the Rockefeller estate at Pocantico Hills. There were 20 of the marchers who made the journey from New York.

## NEWMAN IS OUT

Columbus, O., May 4.—John Henry Newman, state librarian for the last three years, will become a candidate for the nomination as Democratic candidate for secretary of state. Mr. Newman's opponent will be J. H. Sechrist, member of the state liquor licensing board. Newman was the Democratic candidate six years ago.

## MOOSERS RESIGN

Columbus, O., May 4.—All save two members of the Franklin county Progressive committee have resigned and are figuring on returning to the Republican fold, it is said. Some time ago the line was broken when two Progressive county committeemen were given jobs under Republican county officers.

## ELECTION FRAUD ARRESTS MADE

New York, May 4.—Evidence of ballot box stuffing by both Democratic and Republican election officers, which was dug up by District Attorney Whitman and his assistant, William A. De Ford, resulted in the arrest of four election officials of the Sixth election district of the Twelfth assembly district, of which Charles F. Murphy is the Tammany leader. Warrants are out for two more men in connection with the same election district. The men arrested were charged with neglect of duty in failing to perform an act required by the election law. The arrests were based on indictments handed down by an additional grand jury which has been investigating the alleged frauds.

## GENERAL STRIKE SEEMS IMMINENT

Indianapolis, Ind., May 4.—The executive board of the United Mine Workers of America met here today in special session, at which the question of calling a general strike throughout the country is being considered. Demands from many districts and from a large number of locals that a strike be called have been coming in for the last month, and in the last week these have become so persistent that they can not longer be ignored.

## MOURNERS ACTIVE

New York, May 4.—Upton Sinclair wrote a letter to John D. Rockefeller, Jr., before joining his band of "mourners" in front of the Standard Oil building at 26 Broadway. Marie Ganz, arrested for an alleged threat to kill Rockefeller, was released on bail. The Rev. Dr. William Miller Gamble, rector of St. Stephen's Episcopal church, Coatesville, N. J., held a service for the Colorado dead in the street near 26 Broadway. In his letter Sinclair expresses confidence that the younger Rockefeller is being used by others who are strong and conscientious.

## PERJURY CHARGE

Jefferson, O., May 4.—Fred Aldrich is in jail here charged with perjury in his wife's suit for \$25,000 damages from Mayor Howard J. Redmond. The suit was won by Redmond last week.

## TO THE POINT

The Toledo & Ohio Central laid off indefinitely 100 men in the car repair department at Bucyrus, O.

State liquor license board said the police census taken at Cleveland was not such a census as could be recognized under the law, and the number of saloons fixed last fall would remain the number for the license year ending next November.

Brave Hardships and Dangers.

## REVIEW OF YEAR'S WORK.

Responded to One Hundred and Three Calls, Mostly Wireless Signals For Aid—Hundreds of Lives and Vast Amount of Property Rescued From Waters—Report of Winter's Toll.

Washington.—The winter just closed has been the busiest for the revenue cutter service in its history. During the winter cruising season beginning Dec. 1 and ending March 31 its little fleet has rendered assistance to nearly 1,000 persons and to several million dollars' worth of cargo and vessels.

The cruising fleet was distributed as follows: At Eastport, Me., the Woodbury; at Portland, Me., the Androscoggin; at Boston, the Gresham; at Wood's Hole, Mass., the Acushnet; at New York, the Itasca; at Baltimore and in the Chesapeake bay, the Apache; at Norfolk, Va., the Onondaga; at Wilmington, N. C., the Yamacraw.

The Seneca was sent out from New York the middle of February to resume the north Atlantic ice patrol, which

Onondaga happened to be nearby and quickly reached the Freida and ran out a hawser and hauled her off.

The schooner Augusta W. Snow was twice reported in distress by as many passing steamers. The cutter, after thirty-two hours' search, found her helpless in a rough sea, with her rudder about to drop off, and towed her into Hampton Roads.

On Jan. 15 she rescued the schooner Adriana Wilson, which had sunk off Buckroe Beach, Va. The captain with his crew got away in a boat, but he was compelled to leave \$2,600 in cash behind. The cutter righted the schooner and towed her into Hampton Roads, and the skipper recovered the money.

On Jan. 26, while cruising off Cape Hatteras, the Onondaga was summoned by wireless to aid the schooner Warren Adams, in danger of being dashed ashore in a heavy gale. Within twenty minutes the cutter was alongside and towed her 120 miles to Hampton Roads.

Many other stories of valuable service are told.

## SEEKING LAFFITE TREASURE.

Two Parties Have Chart Disclosing the Hoard's Whereabouts.

Gueydan, La.—An expedition, headed by Captain J. D. Bonnin, from Gueydan, is in the wilds of White lake, south of this place, in search of the treasure of Pirate Jean Lafitte. The party is composed of Dr. J. Milton White, Adam Brasseaux and K. P. Foote. Captain J. D. Bonnin, a descendant of one of the oldest families of Vermilion parish, has a chart and map left him by his grandfather shortly before his death, describing the locality of the famous treasure.

On their trip the Gueydan party launch was hit by the steamer Bobby White. One end of the boat was damaged.

In White lake also are Frederick Mackenzie, magazine editor, and Charles Tenney Jackson, novelist. They claim to have the real Lafitte chart and started their hunt from New Orleans three weeks ago.

Still another party is on the treasure hunt, having started from Abbeville, La. Its identity has been kept secret, however.

## CLIMATE'S EFFECT ON WHEAT

Interesting Experiments Made Prove Soil Is Secondary.

Washington.—Experiments conducted by the department of agriculture demonstrate that climate is the chief factor in determining the varying characteristics of wheat grown in different regions, it was announced.

To ascertain this experimenters grew wheat for six years in California, Kansas and Maryland on soil taken from each of these states. The results showed that all wheat grown in California, for example, was much alike, whether raised on soil of that state or on soil imported from Kansas and Maryland.

On the other hand, it differed considerably from the Kansas and Maryland wheat, no matter on what soil these were grown. In other words, it is stated the wheat grown on the three soils in one locality was similar in composition and appearance, but quite different from the same wheat grown on the same soils in the two other localities.

**SPORT LETTER**

By Associated Press.

New York, May 4.—Amateur rowing club and college oarsmen are greatly interested in the training progress of the Union Boat Club Eight of Boston which has been entered for the Grand Challenge Cup at the Henley, Eng., regatta, to be held July 2-4. The crew and substitutes consisting mainly of former Harvard Univ. oarsmen are rapidly rounding into rowing form and experts who have been following the daily training predict a powerful, fast and finished eight will carry the Union Boat Club colors at the famous English regatta. The crew as composed at present contains some of the heaviest, strongest and most finished oarsmen to win varsity letters in recent Harvard eights. Although the combination averages well over 180 pounds at the present time, it is expected that when it is boated on the Thames the average will be but a pound or two below these figures.

The plans of Georges Carpenter, the English light-heavyweight, for a tour of the world have been set back as the result of the match made with Gunboat Smith. This bout is to be held in London late in June and the fact that the match was made after Carpenter was in receipt of excellent offers for such a tour indicates clearly the confidence of the French pugilist and his backers. According to preliminary negotiations between M. Descamps, manager of Carpenter and "Showey" Baker, the

plans of Georges Carpenter,

Australian fight promoter, Carpenter was to have received \$50,000, and expenses for three bouts in Australia. It was proposed to match him with Dave Smith, Eddie McGoorty and a third opponent with an interval of several weeks between bouts. Carpenter was expected to return to France via America, meeting several boxers of prominence while in the United States.

The rapid development of athletic spirit and competition on continental Europe under the stimulus of the Olympic games enthusiasm is well illustrated by the remarkable changes in the Hungarian sport situation during the past few years. Trainer Al Copeland, the former record holding American athlete, who recently arrived at Vienna to assume the position of Olympic trainer to the Austrian team, stated just before his departure that both Austria and Hungary were making rapid strikes in all forms of track and field athletics.

It is understood that some quiet missionary work is being done in England by the American golfers who are getting at Sandwich for the English amateur championship tournament. The object is to secure a representative English entry in the United States amateur tournament to be held over the Ekwanok Country Club course the first week in September. It is believed that in view of the fact that fully a dozen of the leading players of the states made the journey to England it is not unreasonable to expect the entry of at least three or four of the leading

British amateurs, including Harold H. Hilton. Special efforts are being made to this end since it appears likely that the English professionals will pass up the United States open at the Midlothian course because of the early date selected for the tournament and the fact that what the English term "very tryin' weather" may be expected in the middle west during the latter part of August.

**B. F. KEITH'S**

Summer Vaudeville at B. F. Keith's Theater, Columbus, will be inaugurated in that house, Monday, May 11, and continue throughout the summer.

"Summer Vaudeville" differs from "Winter Vaudeville" in the size of the bill, and in the fact that three shows are given daily. The prices are less, too. Only 10 cents and 20 cents. The afternoon show will begin at 2:30. The evening performances will begin at 7:30 and at 9:00.

There will be five or six acts of vaudeville and the motion pictures which will be selected with unusual care.

The vaudeville bills will be arranged with as much care as those of the winter season. Careful attention will be given to the arranging of every bill, in that the offerings will be diversified throughout and thoroughly entertaining.

The same care will be taken of the house. The usual cleaning force will be retained throughout the summer, and the house will be thoroughly cleaned, twice daily.

Those who come to this theater will always receive courteous treatment, and everything possible for their comfort will be in evidence. The brightest, best and snappiest acts which can be procured through the United Booking Offices of New York City will be seen from week to week. When in Columbus, do not fail to visit B. F. Keith's Theater.

SUNDAY PICTURES.

Each Sunday, from 1:30 in the afternoon until 10:30 at night, there will be a continuous Motion Picture Show at Keith's Theater. The Sunday prices are but five and ten cents. The pictures are all first-run, and the bill is the best in the city, from week to week. The theater is conveniently situated on East Gay street and the car facilities are unusually good. Therefore, the theater offers a delightful place to rest, while waiting for a car.

**HOW FRENCH PEOPLE CURE STOMACH TROUBLE**

A household remedy of the French peasantry, consisting of pure vegetable oils, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading down town druggists of Chicago, and who himself was cured by its use. So quick and effective is its action that a single dose is usually enough to bring pronounced relief, in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by Blackmer & Tanquary.

**HAD MADISON'S RAZOR.**

Prisoner Said He Was Fourth President's Great-great-grandson.

Savannah, Ga.—F. A. Madison, who says he is a direct descendant of President Madison, was locked up here after a street fight and after he had surrendered a razor which he said originally was the property of James Madison. The prisoner was held as a witness and then released.

Madison, who was a stranger in Savannah, was set upon and beaten by two men whom he said he did not know. His cries for assistance brought a policeman, who arrested one of the men, but was unable to catch the other. Madison also was taken to the station, and as he was being searched the policeman found the razor in the prisoner's pocket.

"Officer, please let me keep that," pleaded Madison.

"It's against the rules," replied the policeman.

"Can't you let me have it? I wouldn't

Have You Heard About "The Road to Quick Relief"?—Better Get Acquainted With Speedway.

There's more joy for you in one bottle of Speedway than in a whole year of spring days. For Speedway does take the aches and pains away.

Speedway is for those tired, stiff joints—for bruises and sprains—for rheumatic limbs that make you wince every time you move.

Limber up with Speedway! Feel frisky and fine by simply applying this magic balm. It feels good when you use it—you feel like a new person afterward.

Putting it on full strength—rubbing gently until the skin glows—is just the thing. For Speedway cannot burn or blister the skin. It's as soothing and pleasant as toilet water. It cannot stain the flesh or the daintiest fabric, being a kind and gentle remedy—and just as sure as it is agreeable.

Suppose you go—the first minute you get the chance to Blackmer & Tanquary, or Christopher's or Baldwin's and buy a bottle of Speedway. Better get the large size, and use it faithfully—then you will absolutely receive the results promised or the druggist will return your money.

Speedway was discovered and successfully used for years by a good old Scotch physician. Now it is given to the world—ready to prove your "road to quick relief." Try it now.

take anything for it," begged the prisoner. "James Madison was my great-great-grandfather and that razor and the family Bible are all of his possessions that we have left in the family now. I have been hungry and broke and without a place to sleep, but I have never parted with that razor."

He took the razor with him when he was released.

**ATTACKED BY WILDCAT.**

**Animal Killed In Air As It Leaped on Shoulders of Warden.**

Bangor, Me.—The life of Game Warden E. S. Hodgkins was saved recently in the woods near here by the quickness and unerring aim of William Ryer, proprietor of a set of sporting camps at Head Brook lake. The two men had been hunting wildcats with dogs and had killed two of the animals. They were standing under a tree when Mr. Ryer chanced to look upward.

Perched on a branch directly above the game warden was another cat, as large again as either of those that had been killed. The animal was creeping slowly forward, his lips drawn back over his glittering teeth and the look of a demon on his savage face. Just as Ryer's eye caught the cat the animal gave a start and leaped full for Warden Hodgkins, still unconscious of his danger. Ryer, shouting a hasty cry of warning, whipped his 38 caliber revolver from his holster and fired while the cat was in the air. The bullet struck the animal between the eyes, and he dropped dead.

"It was the closest call I ever had, and I never want another like it," Warden Hodgkins said in telling of the affair.

# URGE MINERS TO WORK ON

By Associated Press.

Charleston, W. Va., May 4.—Reports from the Kanawha coal fields today indicate that many of the miners, who went on a strike last week, will obey orders of the district mine workers and return to work until the International Mine Workers can pass on their contention that they have the right to strike.

In the country east of this city, however, the situation is not so bright, leaders urging the men to stay away from the mines until all questions are settled.

# SUFF SLASHES A FAMOUS PICTURE

By Associated Press.

London, May 4.—A militant suffragette, giving the name of Mrs. Wood, made her way to the galleries in the Royal Academy and ruined the picture of Henry James, by John Sargent.

She approached the painting casually and brought out a hatchet she had concealed in her clothing and with which she slashed the picture several times. She was roughly handled before being arrested.

# BRAVE MEN FIGHT DUEL

By Associated Press.

Paris, France, May 4.—Joseph Caillaux, ex-minister of finance, and Fernand D'Allieries, Caillaux's opponent at the recent election to the French Chamber of Deputies, fought a bloodless duel today with pistols. D'Allieries fired twice but neither shot found its mark. Caillaux fired in the air. The duelists were placed 25 paces apart.

# SEÑORA HUERTA'S LIFE AN ACTIVE ONE

Urge Dictator to Hold on to the Presidency.

Mexico City.—The daily life of Señora Huerta, wife of the dictator who rules Mexico with an iron hand, is most interesting. Like her husband, she is fond of the social whirl and entertains on a lavish scale. Even while the country is torn with the war, her husband facing deposition at the hands of the United States on one side and

the rebel troops on the other, Señora Huerta does not give up her social activities.

Doctors are advising and using a newly-discovered anti-toxin which is claimed to completely immunize the subject; this is the first time that such a course has been pursued here. The city water has been suspected as being impure, and Health Officer Glenn sent samples to the State Board of Health for analysis. The report advised boiling, while acknowledging the absence of typhoid germs. It is scarcely probable, however, that the city water has been the cause, as one of the most serious cases is that of a young lady who had been using nothing but boiled water.

It is believed by some that the source of contamination lies in the use of water from wells.

# ORDERED TO DIG OR PAY THEIR FINES

William Pope, Luther Pope and Geo. Lester, three train riders thrown in the cooler by B. & O. detective, Raphael Kennedy, were arraigned before Judge Allen Monday morning, fined \$10 and the costs, and given until noon to get out of town or be taken to the workhouse.

The trio lost no time in hitting the trail for "Manywheres."

Mr. Bush was a former resident and has reached the advanced age of 89 years. He has a large family connection in Fayette county.

# EAST END CHAPEL NOTES.

The services at East End Chapel for several months past have been growing in interest. Last evening, Rev. Henness delivered a strong sermon on the subject of "The Necessity of the Crucifixion and the Departure of Jesus from the Flesh," which he developed into an interesting and instructive address.

Mid-week service held Thursday evening at 7:30 o'clock with the subject, "Solomon" as the evening's topic. Everybody welcome.

freely with the masses. She can be frequently seen in the Mexican cafes in the evenings, walking, dining and dancing, and one would little realize the great care that hangs over the shoulders of her soldier husband.

She loves her children dearly. Her son was recently married. The ceremony was performed about the time American Charge d'Affaires O'Shaughnessy was handed his passports by the Mexican minister of foreign relations.

Although representative of a hostile government, O'Shaughnessy, who is a close friend of the dictator's family,

was urged to remain in Mexico City not as an official representative of the United States government, but rather

as a private citizen, and attend the marriage of Senora Huerta's son.

Her life is full of activity. She looks

not to tomorrow and lives only for today.

It is she, desirous of retaining the highest social position in all Mexico and of residing in the National palace,
